RAT in 2008

Born in the Year: 1912, 1924, 1936, 1948, 1960, 1972, 1984, 1996, 2008

Element: water, wood, fire, earth, metal, water, wood, fire, earth

Overall Prediction & Improvement Advice

1912 & 1972: Quite average throughout. Stay busy but not over busy.

1924 & 1984: Sufficiently good throughout, enjoy but be mindful of safety!

1936 & 1996: Wear Red throughout, including the underwear!

1948 & 2008: Very good year but stay at home if it rains.

1960: A Peaceful Year, no major up nor down. Work more; talk less.

Good Stars: Gold Smith, General Star

Bad Stars: Heaven Thunder, Corpse Star, Grand Duke, Sword Blade

Rats' Characteristics:

You are extremely intelligent and one of high survival skills. You are a team-player for different reasons. You take inputs from others to create superb and highly effective solutions that benefit others and, unselfishly, for your own credit and glory. You think a lot and many can only guess for you are too fast and unpredictable. Go and join the Amazing Race!

Rats' 2008 Luck:

This is another year of mixed blessings. Congratulations if you have lived to read this. The road ahead may be more precarious but you certainly have better stars to help you unlike last year. Do not be afraid when people tell you, you will cross the Grand Duke's path, as you have producing stars like the Gold Smith and General Star to help you. On the surface, some reports may suggest negativity. But if your mind is set, don't let the facts confuse you. Have faith and go forth and all efforts will yield gold. Join force with a Oxen friend so that you may be invincible! Let him block the arrows. For those working, do not be bothered by some small obstacles that enemies throw in your way. That will only trip themselves. With the General Star above you, all enemies will be annihilated. For those who handle tools be extra cautious about safety; you need that hand. If you want to strike out on your own this year, go forth, you may succeed.

You have better luck in the share market than in property. You may also buy some lottery this year.

Married couples relationship may not be smooth sailing. Remember Hell knew no fury like an estranged wife's scorn. Learn to behave and respect each other like those courtship days and you will realise it is not hard after all. Use fengshui to energise your love life. For those dating couples who is always quarreling, rethink about the whole thing; you can still get out if you want to. For those seeking, opportunity will prevail but if your nose is still too high up, you will not be able to see it when it comes.

School work may be extra pressurizing this year. Don't just concentrate on your favourite subjects and neglect the rest. Having 4 D grades is still better than 1A but 3F. Not the time to have steady boyfriend or girlfriend. Very unlikely they will marry you 15 years down the road. Some will grow ugly and fat and when you look back you will be glad.

For the elderly, spend your leisure time creating things you like. Your hobbies can turn out to be a money spinning venture. Do not neglect the slightest sign of health symptoms. Early detection and treatment can save your life. Don't meddle into other people's business and you won't get into trouble.

Useful Feng-Shui Tools for Rats:

All humans are equal but some are born more equal than others. If you can't beat them at birth, try to beat them at life. Feng-Shui can be a catalyst to help you achieve that. Mix with 40% hard work & 40% positive attitude should do the trick.

Element: water, wood, fire, earth, metal, water, wood, fire

1925 & 1985: Opportunities for improvement is there. Just lift your butt.
1937 & 1997: Stay still and pretend nothing had happened.
1949: A better year than last year but mind the few pit holes around.
1961: Try move a bit faster than your usual self. Good things don't wait.

Good Stars: Sun, Duke Grace, Jade Hall

Bad Stars: Bad Luck, Empty Star, Dark Arrow

Oxen's Characteristics:

You are well-known for your perseverance and stamina. When other people fizzle out, you are still standing. Never quick to put blame on others, you make reliable friends and partners despite your stubbornness. You are often made use of by friends but you don't seem to mind. Even in good times and prosperity, you maintain a mellowed countenance. Your partner often gets impatient with you but at the same cannot live without you.

Oxen's 2008 Luck:

Although the good and bad stars are equal in numbers, the good stars should prevail and you will triumph. For businessmen and women, do not mind going the extra miles to get the results. Conversely, easy deals may not be good for you. Use your normal prudence and instinct so that you don't have to fall into unnecessary traps. Feng-shui can help also. Moderate your expectations and you will be happier. If you have been waiting for that promotion and increment, don't quit if some less capable colleagues got it instead. This World breaks people but some cows just get tougher at the cracks. If it is time to go and look for new pasture, go and don't reminisce the old grass. Go where there is sunlight. Stick to a Rooster friend and serve him well so your days will be better.

Side luck level varies on the years born. Those born in 49, 61 and 85 have better luck in this area. Whether stocks or lottery, play in moderation.

The answer to whether make or break for the Oxen lies in the family. If the family is strong so are the good stars, vice versa. For married couples, if you have been trying for a kid but without success, this is the year! Fire early so your child can bring you great luck. For those with the kids, postpone the canning to next year, bear with the monsters for your luck sake. For those singles and seeking, not much luck this year so you might as well make yourself happy by channeling your energies to other areas. Indulge in food but at your own perils. Big in size can't be helped, big in the tummy too ??!

For school children, you may find you can absorb better if you wake up early to study. Don't hang out late at friends' place or go partying. You still need to be extra hardworking if you want to go to a good school.

For the elderly, you are going to have more grandchildren this year. Exercise so you have the stamina to play with them. Sitting down in front of the TV is the last thing you want to do. Come to the Fountain of Wealth as often as you like. It will recharge you with full vitality!

Useful Feng-Shui Tools for Oxen:

Feng-shui is about balancing energy forces which tend to be off balance in certain areas at certain times of everyone's lives. Man calls this Luck. Feng-Shui Tools are just components believed to either enhance or negate the energy fields to reach an optimal effect; thus bring forth well being.

TIGER in 2008

Born in the Year: 1914, 1926, 1938, 1950, 1962, 1974, 1986, 1998

Element: wood, fire, earth, metal, water, wood, fire, earth

Overall Prediction & Improvement Advice

1914 & 1974: A bit shaky initially but things will improve for the better.

1926 & 1986: Pay more attention, undulating months. Start with a holidays far away.

1938 & 1998: Congratulations! You will have a jolly good ride year

1950: Start with a distance vacation and everything will be smooth throughout.

1962: Good on most months! Every problem will be solved in due time.

Good Stars: Distance Horse

Bad Stars: Demise Star, Passing Star, Orphan Star

Tigers` Characteristics:

You are brave and strong in both characters & behaviour. You are adventurous and enjoy threading on dangerous grounds. Curious by nature, you like to embark on new things, learning new skills and settling on new environment. Unlike the oxen who are stubborn inwardly, you are outwardly defiant. They call you the `Trouble Maker`. You don't seem to get along with others but for those who submit to you, they have much to gain, for you will do most of the work for them.

Tigers` 2008 Luck:

2008 is good for the business and career as far as the Tigers are concerned. For businessmen and women, seek overseas ventures and new venture opportunities outside your usual domain. As long as you are realistic and down to earth in your expectation and that you sincerely put in sufficient effort into it, results can be encouraging. For those working, grab on any overseas postings as it will propel your career to new height. It will also help the Tigers' career to go on holiday in the early months of the year. Not only you will be charged up, you may stumble on some business opportunities. No money? Fly budget but they are only cheap if you book early. Otherwise you may employ feng-shui mechanism to help harness your career luck.

There is lottery luck for those born especially in 38, 50 & 98. Those in 38 can buy properties and those in 50 in shares.

The irony of this year's stars is while you need to venture out they also highlight the need to spend more times with the family. Answer to this? Bring the whole family along. The profit you make selling the house is enough to move the entire family. Aim to have children next year as this year will be too hectic for you and next year is a good year for child bearing.

For those seeking for a partner, not much luck this year. You probably lament how come we every year say you don't have such luck. Ok tell you a secret, next year is your greatest year for amorous pursuits. So watch your waist line in the meantime.

For those in school, when was the last time you seriously glue your butt to the chair and study for a straight five hours? Better cut down on playing and spend more time in school work. When study, sit straight, don't slog on the table. Parents who spare the rod will spoil the child. Really can't bear to land a stroke then use goal and reward tactic and keep to your words to ground them if they don't make the mark.

For the Elderly, we hope you took our advice and cut down on those oily and high cholesterol food. If you feel getting dizziness and feeling lump on the skin, a stroke may be falling. See doctor early. Come to the Fountain of Wealth often to touch its water. It's a good outing with the family and it's free of charge.

Useful Feng-Shui Tools for Tigers:

You can't buy religion with money but for feng-shui, you can. Believing is not a criteria; you just need to put the right thing at the right place at the right time.

RABBIT in 2008

Born in the Year: 1915, 1927, 1939, 1951, 1963, 1975, 1987, 1999

Element: wood, fire, earth, metal, water, wood, fire, earth

Overall Prediction & Improvement Advice

1915 & 1975: Quite a roller coaster ride, no big stunts please. Use feng-shui
1927 & 1987: A lot of flights but take it as building courage. Avoid water.
1939 & 1999: Good start but middle months can be a bit rough. Should end well.
1951: Small turbulence on first quarter. Stay cool & things will pick up from second half
1963: On a whole, a tough year but just hang in there for another year.

Good Stars: Red Phoenix, Moon Star

Bad Stars: Heaven Prison, Troop Defeat, Whip Star, Hook Star, Heaven Prison, 3 Punishment & Goat Knife

Rabbits' Characteristics:

You are by nature, playful and fun. You may be slightly timid at times, nevertheless, you enjoy light moments and good company. You are just as sensitive to other people's feelings as about yourself. You may have problems getting over past relationships and you probably hide the scars well, but you should open up yourselves to other opportunities. Your expectations in life can sometimes be unrealistic but hard to snap you out of your dream world. You make wonderful partners for you are always caring and gentle.

Rabbits' 2008 Luck:

Ever heard of the saying, 'you are too smart for your own good'. All your careful planning and devices may face a total system failure this year. It is definitely not wise to do excessive investment that will overstretch your finance this year. Consolidate whatever you have and divest if necessary. Worst still do not attempt any cover up, better to come clean. Important you have enough feng-shui tools to help you alleviate the bad stars effects. You can also depend on a Goat ally and if you are put in charge of a major project, nominate him as your deputy or you be his deputy. Make peace with your enemies and win alliances whenever possible. Stay humble and act stupid. Those handling tools and equipment should be extra mindful of personal safety.

Do not attempt property and shares speculation. Read this thrice. At most desperate time then buy a 50cent ToTo.

Relative to your business and career indices, family and romance luck will be much better. You will look extra brilliant at night but please go home before midnight if you are under 21. No internet and blind dating. We refer to both sexes. You will feel loved and appreciated more than before but stay sober. Those married will rekindle lost passion with your spouse although your extra marital affair may come back to haunt you. Settle it with money and not a bullet lest you don't mind the gallows.

For those schooling, you may find lots of energy to study at nights. That is perfectly fine if you are really studying rather than playing a fool. Avoid the opposite sex unless you don't mind being a parent at this age. Don't be too proud of your preliminary results and take heed of a potential surprise: what you think is your easiest subject may turn out to be a nightmarish final examination paper.

For the elderly, you are likely to stay as healthy as last year but don't think that you are sexy when the younger lass smiles at you. Use your bigger head to think. It's a no money no honey world, old friends. Your lottery or lucky draw luck will follow you into this year but don't ever get into the shares or property markets lest your coffin money is expandable.

Useful Feng-Shui Tools for Rabbits:

Don't be ashamed to use feng-shui and worried others may ridicule you. Many educated people and rich business people practice it. Notice how some 5 Star Hotels slant the facing of the entrances. Billion dollars real estate projects were built based on entrenched feng-shui principles. If the tycoons believe in it, you worry other people mock at you?

DRAGON in 2008

Born in the Year: 1916, 1928, 1940, 1952, 1964, 1976, 1988, 2000

Element: fire, earth, metal, water, wood, fire, earth, metal

Overall Prediction & Improvement Advice

1916 & 1976: Very tiring but fun year. Walk in the forest at least once a week.

1928 & 1988: Good. Walk barefooted even in the office. Carry charcoal wherever you go.

1940 & 2000: A very good year. Don't gossip; it depletes your good luck.

1952: Average year. Mind your own business and soak in bath tub or the pool regularly.

1964: Great year. Too much energy in you. Play football.

Good Stars: Gold Smith, 3 Stage,

Bad Stars: Flying Seal, Year Seal, Talent Blanket, 5 Ghosts, Yellow Sails, Shame Star & Court Seal

Dragons' Characteristics:

You often lead a life of grandeur and gaiety. Adventurous and fond to go into areas where others avoid, you are often not seen as a good team-player. Often not well-liked by the same sexes but always attracted to the opposite. Sometimes, over-bravery and because you look at things differently can lead you to a life of solidarity. You, however, never failed to marvel people with your results. A trustworthy specialist, whom is capable to get the most difficult task accomplished, You make wonderful partner, provided people are willing to take the back seat.

Dragons' 2008 Luck:

2008 will be a very interesting and challenge year for you and whether you ride it out victoriously or in defeat depends greatly on your decisions and course of actions. Your cliché to live by is "Think before You Act". Although you have producing stars like the Gold Smith and 3 Stage to help you fight any adversaries, ask whether you need to fight in the first place. Another worry is if you had hidden any skeletons in the closet last year, it may come back to haunt you. Humble down and play fair. For those working, practice diplomacy and making friends is better than making enemies. Ignore your competitors' snare but be careful of office gossips. You may lose your job due to office flirtation. Postpone your thought to strike it out on your own. For those in the technical line important you keep upgrading yourselves. When you stop learning so will your pay.

When career luck is uncertain, side luck is clearer and better. So pun in moderation be it the share market or the nation lottery. Don't buy from black market though, chances of double whammy (i.e. getting caught and no prize money) is high.

The more money you have the more trouble you may face in your marriage. Men don't sin because they don't have money. Be careful of the lover's snares. Ignore gossips about your spouse or partner. They come from ill-intent people. No bad stars to discourage you from having babies this year although it is better you have enough money to prepare for it.

For dating couples who is always fighting, rethink about the whole thing; you can still get out if you want to. Do not get involved with married people. 90% of times they go back to their partner. Those 10% that make it may leave you for another in future.

School work should not bother you too much this year but your extra curriculum activities need to be checked. Long time never seen someone got caned in the assembly? Could be you so be extra mindful of your behavior. We did predict the teenage who get caught hacking into his school system didn't we? So don't say we never warn you.

For the elderly, spend your leisure time creating things you like. If you don't like your son's or daughter's latest partner, don't show it too obviously in front of your kids. Help them to see for themselves. You may use altering your will as the last threat.

Useful Feng-Shui Tools for Dragons:

Why use feng-shui when your luck is already on the upswing? First, to enhance or expedite the good energies into your life. Second, not everyone of the same horoscope year may share the same destiny; otherwise all your classmates should have about the same encounter as you the entire life.

Do not join gang and if sadly you do and one day get caught in a gang fight and the policeman points a gun and shout at you, "put down your weapon," please put down your weapon.

Similarly, for the elderly watch your own safety and security. Please remember to lock the door and turn off the stove before you knock off. If a thief still manage to enter your house, sleep through it.

Useful Feng-Shui Tools for Snakes:

Horses' 2008 Luck:

After 2 full years of bull-run, your luck may take a 360 degree turn. This is a year of reverse thrust reckoning and you need to be prepared. Do not be greedy and think you can keep repeating the good performance you made last few years. You may think you have seen it all but the reality is much more cruel. Deal or no Deal? Choose no deal. Also don't aggravate mistakes by covering up; it may get worse and end you up in jail. For those working, advised to keep a lower profile. Do not be heroic this year. Many heroes die young. If possible find excuses to get out of situations that put you directly responsible. Align yourself with a Goat colleague's camp. Any other camp is the losing side. Check carefully each time you sign on the dotted line. For those who are in charge of company assets and properties, don't ever think you can get away with any misappropriation; the star says he will catch you.

Save the lottery money and don't speculate in shares and properties.

Cherish the relationship you have with your spouse and loved ones. Financially you can afford less so not a time to double-time (as if other times you should) even if opportunities keep on availing themselves. Best to stay at home with your family more. You spend less this way also.

For the singles, watch out for love-traps. Some of you could get so muddle headed over a rejected relationship that lead you to do something stupid. Think of your family before you do any of those things. Something once done cannot be undone.

Handling your horse children requires more tacit sensitivity. Hold them too tight they will rebel, let them go freely they will stray. Monitor them closely without them knowing is what you can do. Applying Feng-Shui mechanism is another.

For the elderly, evening walks before and after dinner can do wonder to your health. But don't walk and walk and end up chit-chatting with the young girls in the Geylang coffee shop. We are not doubting your virility; just your pocket.

Useful Feng-Shui Tools for Horses:

If people of good luck year use feng-shui to help enhance the positive energies, for your case is to use feng-shui to block and divert those bad energies that are affecting you adversely this year.

GOAT in 2008

Born in the Year: 1919, 1931, 1943, 1955, 1967, 1979, 1991, 2003

Element: earth, metal, water, wood, fire, earth, metal, water

Overall Luck:

1931 & 1991: A fantastic year throughout. But too much good food can cause trouble also.

1943 & 2003: Balance your needs and the time you have. You are not Superman.

1955: A good year for you but got occasional snares. Wear football shoes.

1967: A very strong year throughout, just laugh quietly to the bank.

1919 & 1979: Average only. Drink wheatgrass juice.

Good Stars: Jupiter, Dragon Grace, Earth Solution

Bad Stars: Failure Star, Heaven Arrow, Duke Arrow, Heaven Prison and Six Poison

Goats' Characteristics:

You are basically a hardworking and down to earth person. Peaceful by nature, you are not quick to make impression and are barely status-crazy. You don't like people to disturb you and mostly you are in your own world, enjoying what you do best, with or without getting the credit. But when it comes to affairs of the heart you will fight relentlessly even if the odds are against you. You are a good and reliable partner who is willing to go through thick and thin for your comrades and loved ones. Your sacrificial nature is most valuable though often being abused.

Goats' 2008 Luck:

Your luck will improve greatly in 2008! Arise and take advantage of all the good stars that will shine down on you! For businessmen and women, go all out to capitalise. However, do not let success muddle your head; stay humble and vigilant lest you step onto your enemies' snare. A Horse, a Rabbit and a Pig may come knocking on your door for help (we mean horoscope friends! You think real animals know how to get to your house?). We know because we ask them to. Bless them if you can. For those working, human relationship is more troublesome than work per se. Your extraordinary performances will attract promotion as well as jealousy. Enjoy the pay raise but reject the glamour and fame. Those who are too proud will fall hard.

While your career luck improves tremendously, side luck may go the opposite direction. Buying lottery should just be taken as helping charities this year. Between Property and Shares, you have better luck in the former.

Married couples can aim for more kids this year. This will multiply your luck. Conversely, do not attempt abortion or else your luck will dip tremendously and so will your health. For those contemplating on marriage, just do it! Do not let work hinder your love-life. For those seeking, love is in the air and you will find in no time the right partner but please dress well. Cupid will rather shoot his own feet if you go out in your pajamas.

For goat students, over confidence is your Achilles heel. The reverse is also true; i.e. over worried. Better to have a balanced study plan and keep to it. Time to play you play, time to study, glue your butt. Do not leave any MCQ unanswered. Jupiter will help you choose the right letter.

For the elderly, it is a year where your wishes come true. So be careful what you wish and last thing you want to talk about is your wake preparation. When missing your dead spouse, says, "Pl wait for me a while longer" and not "How I wish I join you soon". Think of only the good things.

Useful Feng-Shui Tools for Goats:

No one mind more money; same applies to good luck. Feng-shui tools are like harvesting machines, they speed up and squeeze out more good energies in your life.

MONKEY in 2008

Born in the Year: 1920, 1932, 1944, 1956, 1968, 1980, 1992, 2004

Element: metal, water, wood, fire, earth, metal, water, wood

Overall Prediction & Improvement Advice

1920 & 1980: Compare to the rest you are slightly better. Won't be the first casualty for sure.

1932 & 1992: Keep a low profile. Train your back, a lot of bullets dodging

1944 & 2004: Challenging. Grow some banana trees around you.

1956: Learn to take cover, very low tide throughout. Goreng some Pisangs

1968: Busy year but may be fruitful. Don't be too light-ear.

Good Stars: None

Bad Stars: White Robe, Flying Arrow, Flying Curtain, Heavenly Bear, Poison Arrow, Accused Star & Tiger

Monkeys' Characteristics:

Intelligent and versatile are the 2 common traits you have. You have great problem-solving skills and are fast workers. The problems that come along with these positive traits are you tend to make silly mistakes and are pretty unorganised beings. You often drive your partner mad. Yet, you exhibit such charms and aura that get many people captivated. You know how to make others happy and get them motivated. Many may be jealous of you but you know how to win them over through your silly means.

Monkeys' 2008 Luck:

Hope you took our advice to make full use of last year. Anything from here requires twice the amount of effort. No further investment is advised for the businessmen this year. With no good star in sight to help you, you will be occupied just to ward off the bad ones. Use feng-shui to help you. Be careful of unscrupulous tactics by competitors. They will hit hard at you if given the opportunities. Also make sure your accounting is in place lest you be accused of taking your partners' money. For those working, you will have more political enemies because of your success last year. Now they want your blood. Consult a Rat for ideas, appoint a Dragon as your deputy and a Snake a decoy. Go on a long leave. Run out of leave? Take MC and apply feng-shui tools around you.

Lottery luck prevails when career luck dips but only for strong metal, strong wood and both strong earth and weak earth life element people. We are referring to your Shi Zhu Ba-Zhi or Four Pillar Elements.

This is a good year to retreat from your endless struggle in career to spend more time with your family. Have a kid if you want. He or she will overtake all other importance in your life. Be more tolerant to your spouse and kids. They are your last line of defense. Lose them and you lose everything. For those singles, stop fooling around, you may end up marrying someone really not suitable for you and you end up regretting whole life.

For school children, you may be bored that things are no longer interesting. A good chance that you may neglect your schoolwork and score badly for the exam. Parents have to continuously inspire them. Paste a Disneyland Picture in front of their study desk as a reward promise. Cheaper to place a Wisdom Pagoda though.

For the elderly, better not to meddle with the younger generation's affairs lest you be accused of taking side. People give you food, you eat. They give you money, you keep. Sound useless? Then did you have enough saving and be independent in the first place?

Useful Feng-Shui Tools for Monkeys:

Feng-Shui without work is not effective. Feng-Shui with good work is extra effective. If rich people believe feng-shui can help them get richer, shouldn't poor people believe it can make them less poorer?

Rooster in 2008

Born in the Year: 1921, 1933, 1945, 1957, 1969, 1981, 1993, 2005

Element: metal, water, wood, fire, earth, metal, water, wood

Overall Prediction & Improvement Advice

1921 & 1981: Starting slightly rocky but will subsequently improve greatly. Hang Loose!

1933 & 1993: Things can only get better and better as the months go by. Congratulations!

1945 & 2005: One of your best years, go all out to capitalise

1957: Small obstacles here and there, but the rewards behind them are even greater

1969: A blessed year with the Midas touch

Good Stars: Heaven Grace, Heaven Happiness, Lucky Star, Lucky Grace, Red Phoenix

Bad Stars: Tangle Star, Salt Lake, Blanket Star, Poison Tongue, Year Arrow, Flying Dagger & Sunset Star

Roosters' Characteristics:

You are a highly capable person. Though not outstanding when young, you grow to be an exceptional leader. You have exceptional learning capacity and adaptability. It does not take long for you to rise to the pinnacle and like wine you only get better as you mature. You can be seen cocky at times, that's because you have your own way of thinking and very hard to change your mind. Quarrelsome to a certain extent, but nevertheless, attractive and charming.

Roosters' 2008 Luck:

After living a realm of uncertainty for a while, good news finally arrived. You have more good stars than the other horoscopes so rise up and make full use of it. Although bad stars aplenty but their powers are limited. So invest intelligently and you will make your best income this year. People may be scathed by the property and shares market but you will be the exception. If ever there is a problem, more likely you are the one who created it. For those working, bosses will dote on you, colleagues will adore you and competitors worry sick. There will be the jealous ones of course. As long you do not stoop low and do anything wrong, no one can fault you. Still, don't be too cocky or else you just create problems for yourselves again. For those in technical line, if you don't know what that button is for, don't press it.

Give one third away to charity when you strike big in lottery and more good luck shall follow. Do your research when investing in shares and properties and sit through it even if tide may look apparently opposite. You will be handsomely rewarded. However we don't suggest you borrow to punt. Whatever, do within your own mean.

When career luck is up and money rolls in, marital lives will take a beating. Money and vice come in pairs. To ward off these negative effluences, have a kid; sure to leave you with no idle time to stray. Less troublesome would be to employ feng-shui tactics. For those singles and seeking, your chances of getting hitched multiplied greatly this year. There is no need to put on air though; no one likes a cocky partner.

Rooster students will have little problem with their study. Problem again is over confidence. You may get away this year and clear your exam with ease but sooner than later this over confidence attitude leads to habits and unknowingly to you, you may shut off new knowledge inputs that eventually leads to decline. Digest on this.

While Goat elders got to be careful on what they wish, Rooster elders have no such burden. Only good things can happen to them. Wishing for another younger opposite sex companion while your old partner is still around? That may sound a good wish to you but unfortunately that is not likely to happen.

Useful Feng-Shui Tools for Roosters:

If you think you can pull it off this year without feng-shui, by all means; if you think you need some help, good for you! Just get ready some money.

DOG in 2008

Born in the Year: 1910, 1922, 1934, 1946, 1958, 1970, 1982, 1994, 2006

Element: metal, water, wood, fire, earth, metal, water, wood, fire

Overall Prediction & Improvement Advice

1910 & 1970: Better than last year but wear a helmet.

1922 & 1982: Challenging year. Go donate blood.

1934 & 1994: Lots of side lucks but not before a small incident.

1946: Starting may be rocky but will pick up favorably. Endurance is key.

1958: On a whole not too bad but don't expect too much either.

Good Stars: Stage Star, Heaven Solution, Solution Star

Bad Stars: Blood Star, Leopard Star, Hanging Star, Heaven Dog, Widow Star & Sinking Star

Dogs' Characteristics:

You are a righteous and chivalrous person. Quick to the rescue when your loved ones or friends are in trouble. You are selfless and courageous although under normal circumstances, you don't like to stick your neck out. For you, actions always speak louder than words and you usually have problem expressing your feelings especially when comes to the affairs of the heart. Conservative and cautious, it takes a while to win your confidence over but once achieved, we can count on you forever.

Dogs' 2008 Luck:

Relative to 2007, you are better off this year although you would still need to adopt a cautious attitude and exercise prudence in your business. Still not the time for new investment. The good news is every problem you face will resolve by itself, so you are likely to get frights only.

Concentrating on your own familiar ground can yield better results. For those working, it may be another challenging year laced with obstacles but have hearts as all problems will be solved. Endure if your boss is a difficult person; he will soon realise your importance and make full use of your potentials. So will your pay be raised. Technical job friends have to be very careful in operating their machines. Safety should always be your top priority.

Side luck is very good for the all the Dogs this year. So happy punting and remember to do your deed for the unfortunates ones.

More worrying sign is the Blood Star. Those born in 1946 more likely to face it and for those with Dog children staying in high rise dwelling; window grilles is a must! If the head can go through so will the body; please double check. Also apply appropriate feng-shui mechanism to minimize these bad stars impact.

It is good that married couples constantly remind one another in safety and security. A family picture in the car can help you to keep to your speed. Take your time to plan having children these coming three years. As for those seeking love and romance, your prayer may be answered these 2 years. Take one year to know each other one year to have honeymoon and one more year to have kids.

School work is not going to trouble you but you better refrain from active sports. A broken leg or hand may be imminent for contact sport players.

For the elderly, good to do moderate exercises and have your health checked. No climbing and carrying heavy stuff this year. Throw your fat grandchildren back to their parents. Indulge in moderate punting for entertainment.

Useful Feng-Shui Tools for Dogs:

Feng-Shui does not depend on your attitude or faith towards it to be effective. There is really no harm in trying it. You can quit anytime.

PIG in 2008

Born in the Year: 1911, 1923, 1935, 1947, 1959, 1971, 1983, 1995, 2007

Element: metal, water, wood, fire, earth, metal, water, wood, fire

Overall Prediction & Improvement Advice

1923 & 1983: Start and end may be challenging with some rooms to breathe in the middle months.

1935 & 1995: Eat more fruits and keep your bowel clear. Good luck follows.

1947 & 2007: Average throughout; watch out the middle months. Quit bad habits.

1959: Not a great year, take it easy. Bathe more often than usual.

1911 & 1971: Better than last year unless you have become lazy. Take less Sugar.

Good Stars: NIL

Bad Stars: Death Star, Empty Star, Swallow Star and Sickness Star

Pigs` Characteristics:

You are a jolly fun and person. Always optimistic about life, you love good company and what a party animal you can be! Come to business, you know how to establish your position and network. But you are lousy rejecter; always agreeable to things that later you find hard to fulfill. This, however, does not mean you are mild and can be easily taken for granted. You are not a person to mess with for you can be rough and merciless when provoked. Flattery is the key to the Pig person`s heart.

Pigs` 2008 Luck:

There is no good star around to help you in your business but neither the few bad stars around are supposed to harm you in that area. What this means is you are probably on your own when your business is concerned. You may want to conduct more research and studies into any new venture these two years but if you have already done enough of that and your instinct tells you to go ahead, then by all means do so. You may find results to be slow but that`s better than total failure. Ride it out and with experience and on the ground training, you will grow to be more astute and good profits will eventually roll in. For those working, do not overwork. It`s just a job and the company does not belong to you, remember! This is because Sickness Star is in sight. Worst still if your job require you to drink alcohol and entertain clients. You are not a bar girl, get a new job less Hell is your kind of hangout place. Those involve in driving heavy machineries must not work too many shifts in a row. Your lost of concentration can cause you your life. Get some protective charms and you play a more vital role.

Not much lottery luck for all Pigs so save your lottery money or give it to charity instead. Shares and properties are just waste of time for you. Better to have your money below your pillow.

Married couples may bicker more this year. If the other is a Snake, there may be some divorces. But one can certainly avoid this. How? Swallow your pride and keep quiet or else use feng-shui.

For the singles and seeking, your wish may not be granted this year. That`s alright just keep yourself busy and before long with your kind of cheerful disposition, your Cinderella or Prince Charming will soon appear.

Pig children may fall sick more often this year. Was it due to excessive schoolwork or games. Sickness Star may play a part but actual self doing is often the case. Tell your kid if next time they use their hand phone while crossing the road, you are going to take that away.

Elderly should watch your own health and safety. Do not climb high and low. Do not carry your overweight grandchildren. Do not dry clothes out of the window. Do not disturb somebody`s wife. In short do not find trouble and trouble will not find you. Once in a while, visit the Fountain of Wealth with your family to recharge yourself.

Useful Feng-Shui Tools for Pigs:

This World is never fair. This statement is better appreciated when you see your classmates who never did better than you in school, do better than you later in life. It`s what you don`t see that matters.
